WORK EXPERIENCE

Digital Marketing

Digital Marketing Assistant — JAN 2018 - SEP 2019

- Designed and executed branding materials, including billboards and signage, enhancing brand visibility.
- Creating and posting, or updating content; monitoring or handling social interactions and campaigns
- Ran advertising campaigns across Facebook, Instagram, and Google Ads, successfully attracting and converting leads, leading to a 40% rise in sales

Thedigitalmarketinginstitute

Digital marketing intern — FEB 2021 - APR 2021

- Created blogs, articles, and multimedia content (videos, graphics) to drive engagement.
- Managed targeted campaigns across multiple regions, such as Facebook, Instagram, and Google ads
- Cultivated and maintained positive relationships with clients, resulting in a 30% increase in repeat business.

Hello Word

Web Developer Intern — OCT2024 - Present

- Maintain and optimize company website performance and functionality
- Develop web applications using modern JavaScript frameworks
- Collaborate with senior developers on project implementations
- Participate in code reviews and implementation of best practices

EDUCATION

HyperionDev

Full Stack Web Development — JAN 2021 - JUL 2021

- Completed intensive bootcamp focusing on MERN stack development
- Developed multiple web applications using modern frameworks
- Mastered fundamental software algorithms and database management

PROJECT

Task Management App

Collaborated with a team to create a web-based task management application. Developed the front end using HTML, CSS, and JavaScript, incorporating responsive design principles. I worked with APIs to fetch and display tasks.

E-commerce Website (Academic Project)

Participated in a group project to build a mock e-commerce website. Collaborated on both the front end and back-end using HTML, CSS, Javascript, and MySQL for database management—implemented features such as user authentication, product catalog, and shopping cart functionality.

SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Next.js, Bootstrap, jQuery
Backend: Node.js, Express, MongoDB, PHP/MySQL
Tools & Others: Git, TypeScript, React Native, WordPress, Figma
Digital Marketing: SEO, Google Analytics, Social Media Marketing, Email Campaigns

CERTIFICATE

Advanced Google Analytics
Learn to harness the full power of Google Analytics to track, analyze, and optimize user behavior and website performance. This course covers advanced features like custom dimensions, event tracking, enhanced e-commerce reporting, goals, and funnels. Gain expertise in creating custom reports, segmenting audiences, and integrating with Google Ads and Tag Manager.

JavaScript: Functions
Learn JavaScript functions to master reusable code, including declarations, parameters, and return values. Explore advanced topics like arrow functions, default parameters, closures, higher-order functions, and recursion. Understand scope, asynchronous functions (), and error handling. Build skills in creating clean, modular, and optimized functions for efficient problem-solving and scalable applications.
